

# MOHAMMAD ABDUL WAHAB

Aspiring Software Developer • Web Developer

India | Email: md.a.wahab55@gmail.com | GitHub: github.com/MrAbdulOfficial

---

## SUMMARY

A motivated and detail-oriented Computer Science Engineering graduate skilled in Python, Flask, SQL, and modern web development. Experienced in building full-stack applications, solving logical problems, and writing clean, maintainable code. Strong understanding of backend development, user experience, and responsive interface design. Ready to contribute to real-world software projects and grow within a professional engineering team.

---

## TECHNICAL SKILLS

- Programming: Python, C, Java (Basics)
  - Web Development: HTML5, CSS3, JavaScript, Flask, Jinja
  - Database: SQL, SQLite3
  - Tools: Git, GitHub, VS Code, Command Line
- 

## PROJECTS

### NovaVerse – Full-Stack Portfolio Web Application

Developed a complete personal portfolio using Flask and SQLite with dynamic projects, multi-image gallery, dark mode, contact form, and responsive UI.

### CS50 Finance – Stock Portfolio Manager

Implemented a stock trading platform using Flask and SQL with buy/sell functionality, real-time price lookup API, and user authentication.

### CS50 Birthdays – CRUD Web Application

Built a birthdays management system using Flask and SQLite with full CRUD support, validation, and clean UI.

### CS50 Trivia – Interactive Quiz Game

Designed a dynamic JavaScript quiz with instant feedback, UI states, and browser interactivity.

### CS50 Homepage – Multi-Page HTML/CSS Website

Created a responsive multi-page website showcasing sections like Home, About, Hobbies, and Contacts.

---

### EDUCATION

Bachelor of Engineering (Computer Science)

C. Abdul Hakeem College of Engineering & Technology (2021–2025)

Percentage: 75%

---

### STRENGTHS

- Problem-solving attitude
  - Fast learner
  - Team collaboration
  - Good communication
  - Attention to detail
- 

### INTERESTS

- Web Development
- Learning New Technologies
- Cricket
- Music
- Video Editing
